## SmartFarmer - IoT Enabled Smart Farming Application

	Probler	n Statement		
Jessy	needs a way to	Fix labour shortage	so that they	Can increase the production
Jessy	needs a way to	Control insects and bugs	so that they	Can stop the affect of plant /crop growth
Jessy	needs a way to	realtime monitoring form mobile	so that they	Can sense the humidity and air quality
Jessy	needs a way to	prediction system	so that they	Can monitor growth of crops
Jessy	needs a way to	To implement Low cost technology	so that they	Can use it to maintain farming related works
Jessy	needs a way to	Acess Detection sensors from place	so that they	Can saw for disease detection of each types of plants
Jessy	needs a way to	Continuous monitoring form devices	so that they	Maintain soil and temperature of land
Jessy	needs a way to	modern technology of methods	so that they	Get good quantity and quality of products
Jessy	needs a way to	Fertilizers	so that they	can increase the yield level
Jessy	needs a way to	High precision postioning technology	so that they	Reducing wastages of land
Jessy	needs a way to	To maintain agriculture related datas	so that they	collect and store analyses of agriculture datas
Jessy	needs a way to	To use solar power	so that they	Save cost of electricity
